IRONFORGED® FABRICATED DECK

This machine is built like a beast, with a heavy-duty IronForged® deck designed to endure years of hard knocks. The Grade 50 high-strength steel deck is nearly 50% stronger than other decks[§] so you can power through tough grass. You'll not only enjoy mowing – you'll enjoy more free time. *Select models.*

PRO DNA

The same, commercial-grade DNA that pros rely on – like thicker steel, lightning-fast blades, and belts reinforced with bullet-proof material – courses through the veins of every mower we build – giving homeowners with big acreage the same lawn-dominating power, durability, and precision to get the job done quicker and get it done right the first time. The result? A beautiful, professional-looking lawn from a mower that's always ready to work.
